

# Shanghai Maglev Train and Animals.

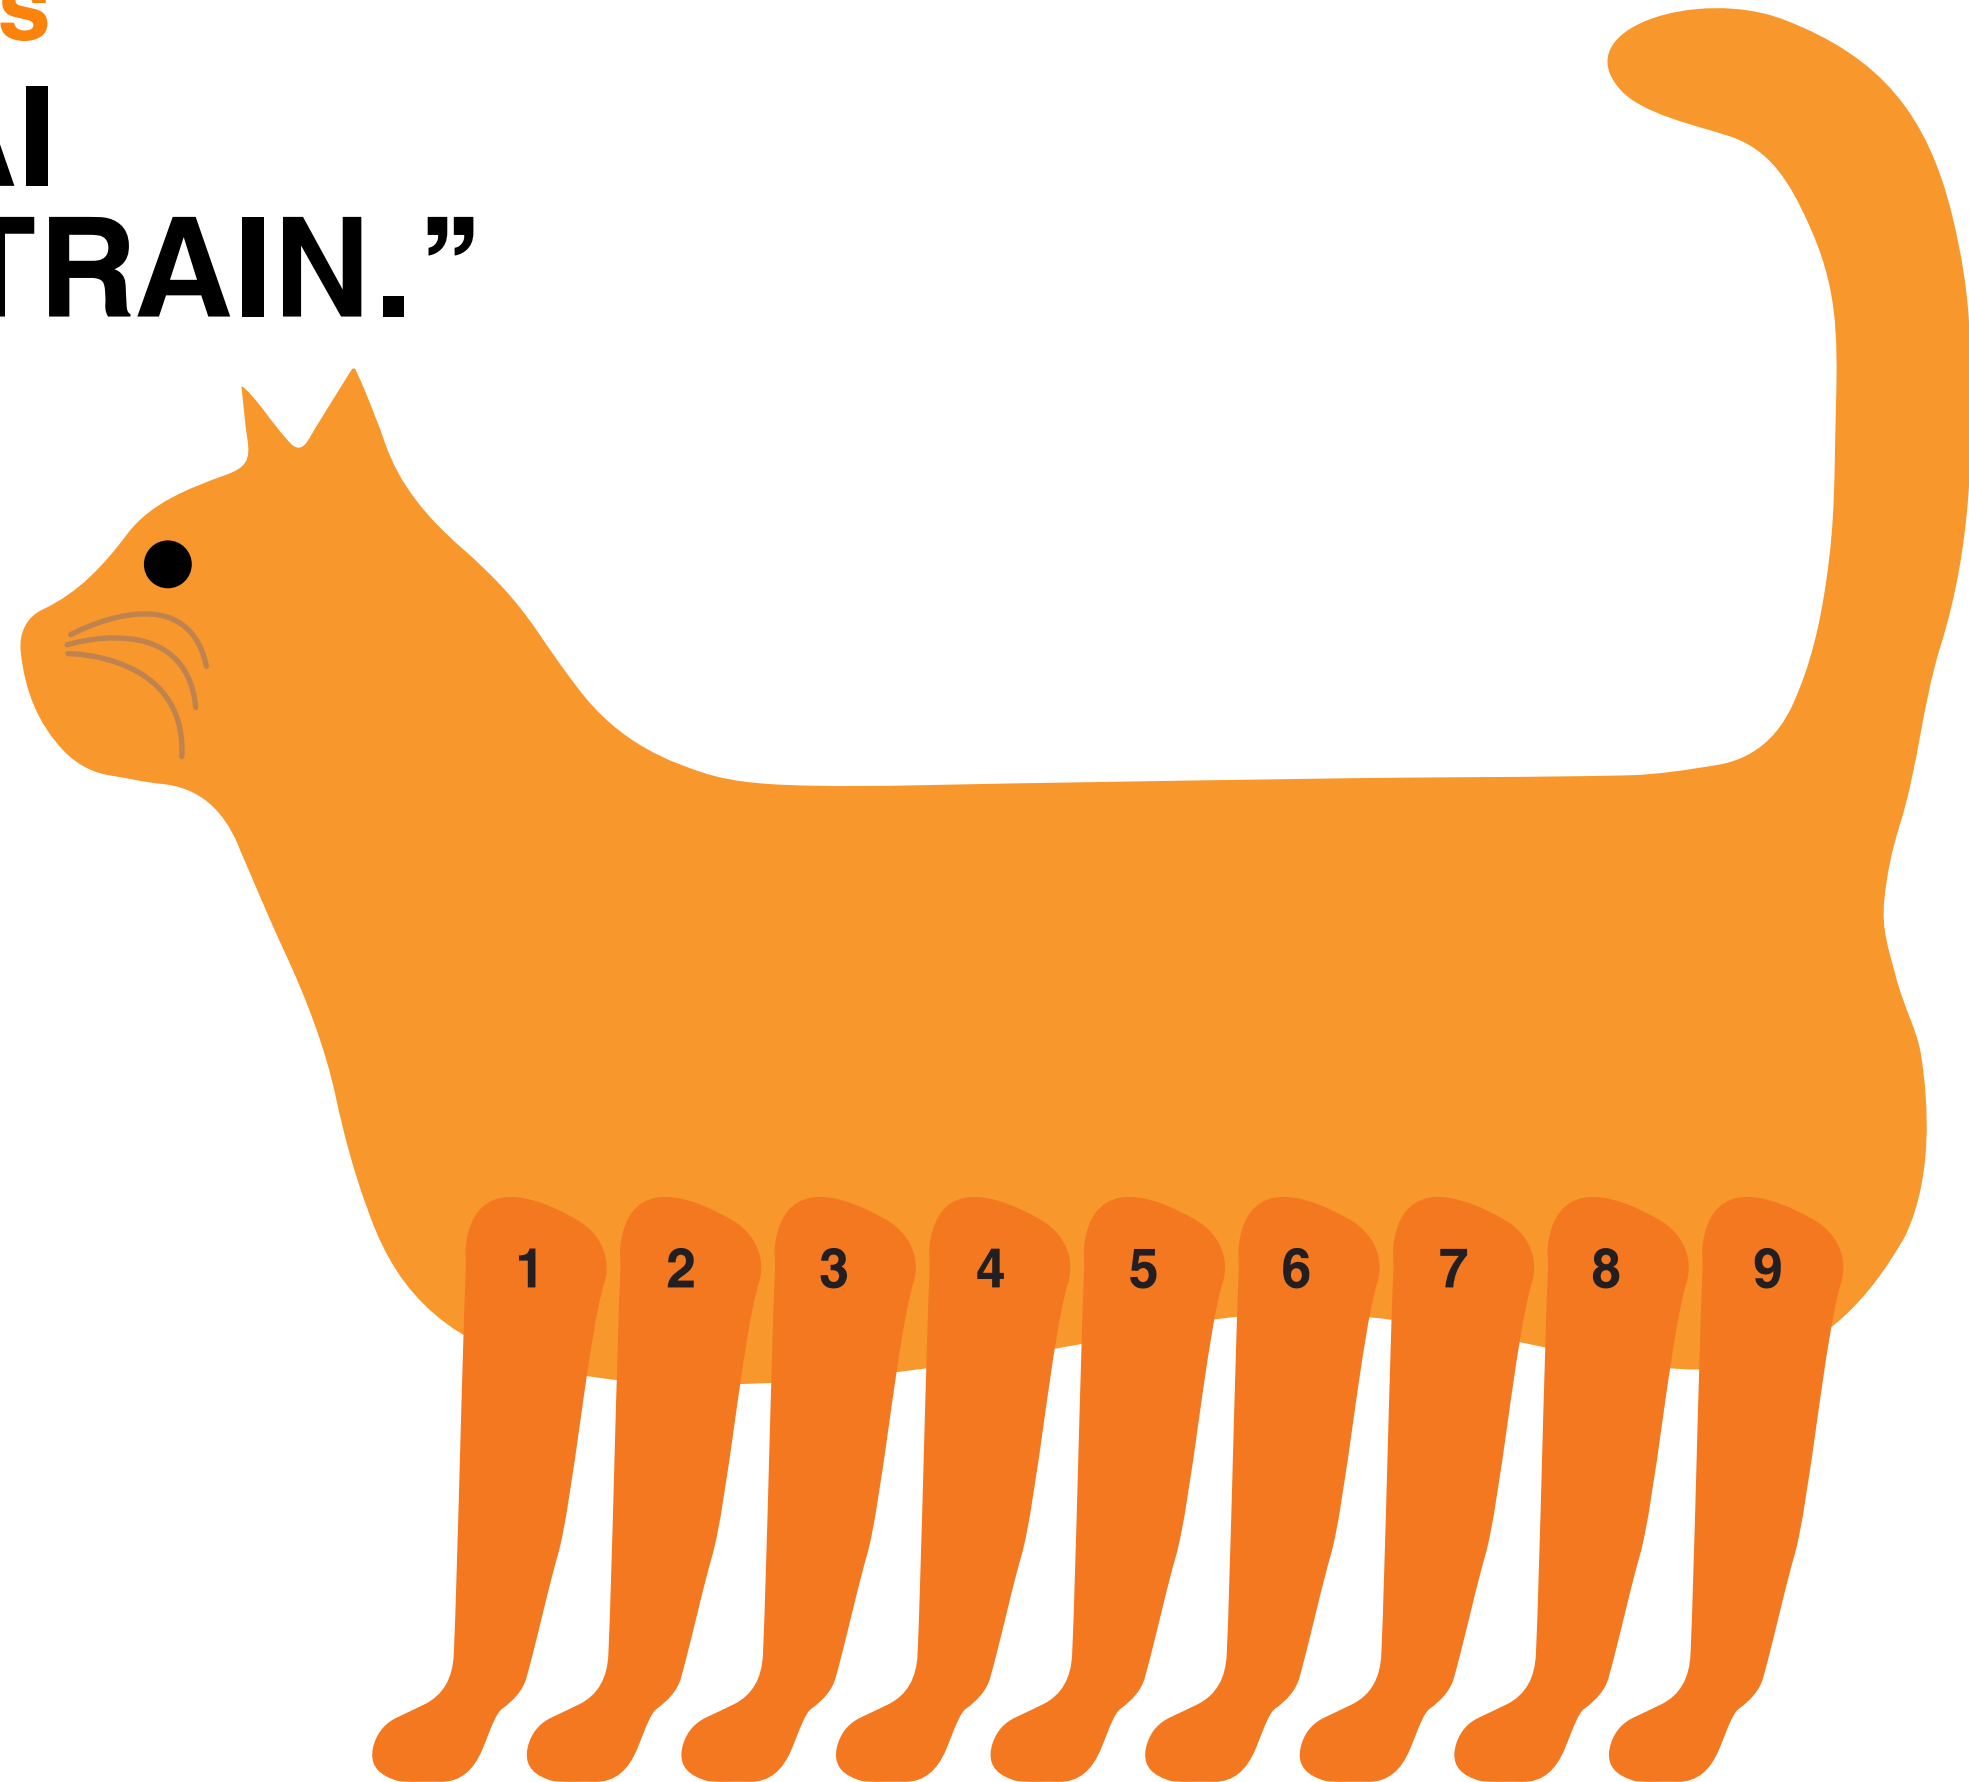

The Shanghai Maglev Train or Shanghai Transrapid is a magnetic levitation train (maglev) line that operates in Shanghai. Comparing it to different animals with different types of speed (running, flying, swimming) gives a sense of how fast the train is.

# Train Competition With Shanghai Maglev Train

The Shanghai Maglev Train or Shanghai Transrapid is a magnetic levitation train (maglev) line that operates in Shanghai. It is the oldest out of all maglev trains around the world (startes operating in 2004). It still remains the fastest train in the world. operating this train in 2004 was far exceeding any other trains before this train and trains that came after.

“The cat needs more legs  
to be as fast as  
**SHANGHAI  
MAGLEV TRAIN.**”
