Abstract

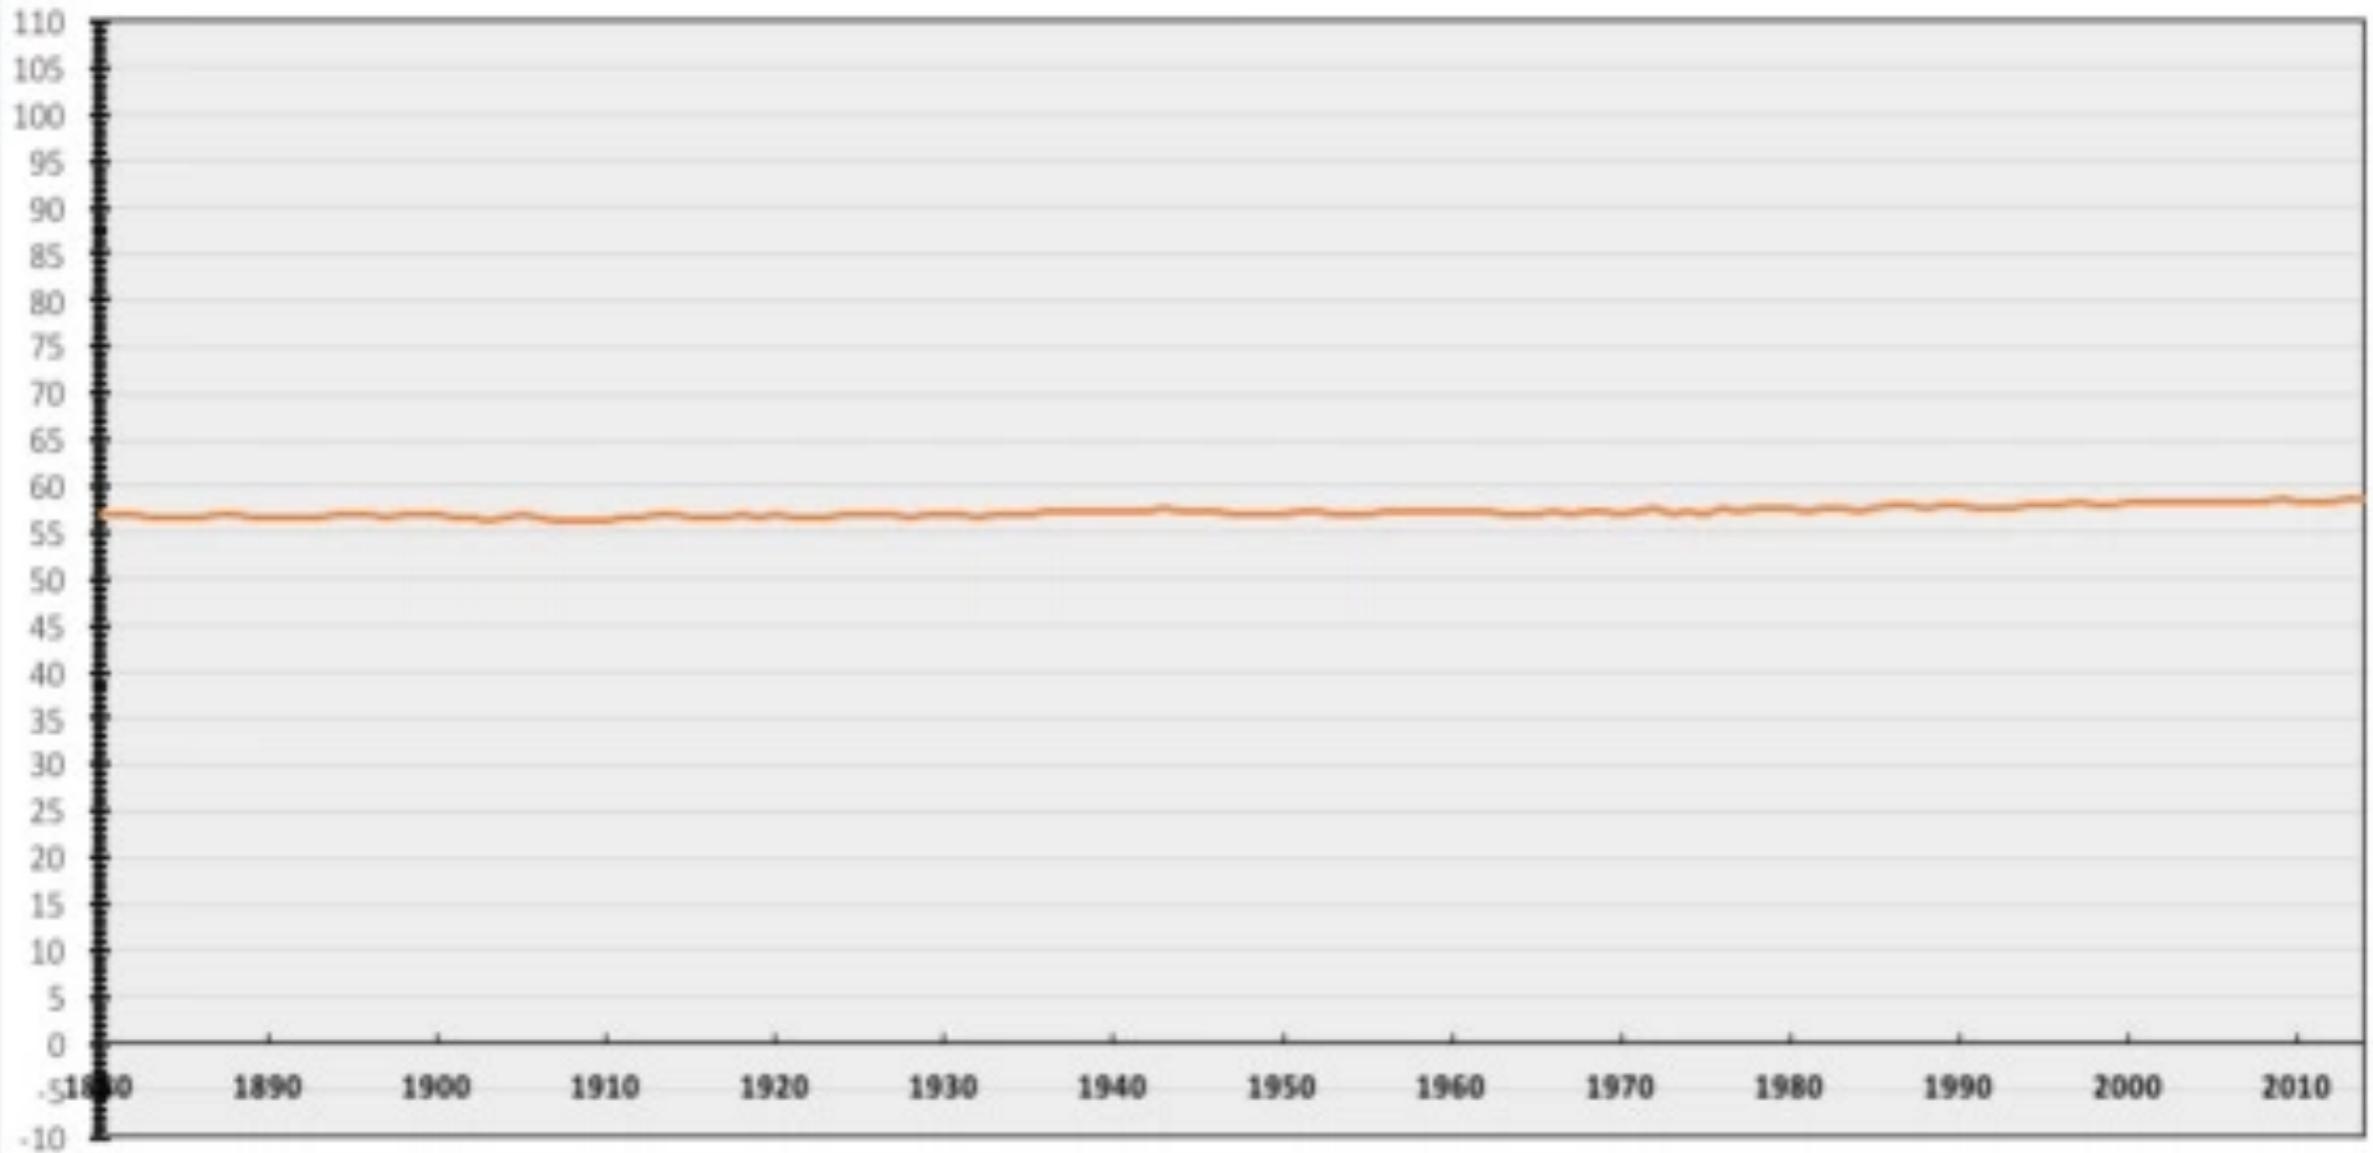

The appearance of being scientific can increase persuasiveness. Even trivial cues can create such an appearance of a scientific basis. In our studies, including simple elements, such as graphs (Studies 1–2) or a chemical formula (Study 3), increased belief in a medication's efficacy. This appears to be due to the association of such elements with science, rather than increased comprehensibility, use of visuals, or recall. Belief in science moderates the persuasive effect of graphs, such that people who have a greater belief in science are more affected by the presence of graphs (Study 2). Overall, the studies contribute to past research by demonstrating that even trivial elements can increase public persuasion despite their not truly indicating scientific expertise or objective support.

miles per hour around the center
of the earth (in their minds).
Think of that speed!

SCRIPTURE THAT CONDEMNS THE GLOBE THEORY.

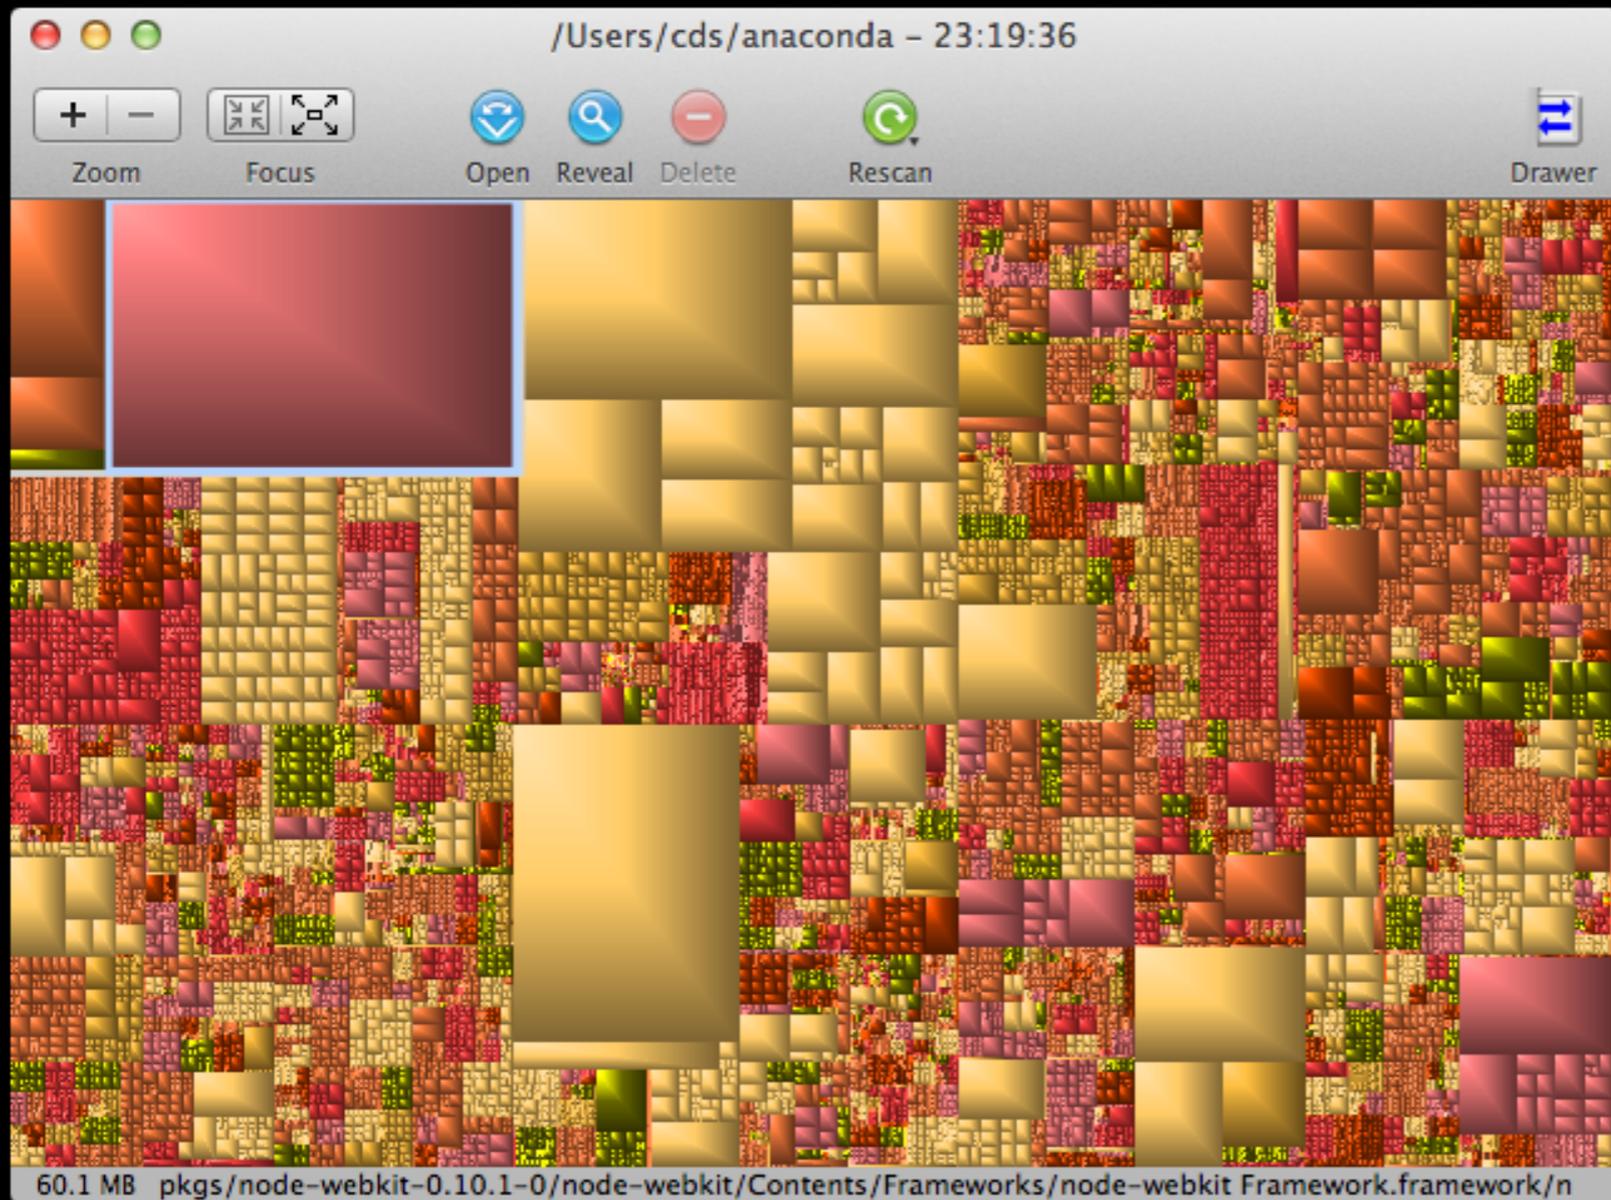

And his hands were steady until the going down of the sun.—Ez. 17: 12. And the sun stood still, and the moon stayed.—Joshua 10: 12-13. The world also shall be stable that it be not moved.—Chron. 16: 30. To him that stretched out the earth, and made great lights (not worlds).—Ps. 136: 6-7. The sun shall be darkened in his going forth.—Isaiah 12: 10. The four corners of the earth.—Isaiah 11: 12. The whole earth degrees.—Isaiah 14: 7. The prophecy concerning the globe theory.—Isaiah: 29th chapter. Woe to the rebellious children, sayeth the Lord, that take counsel, but not of me.—Isaiah 30: 1. So the sun returned ten degrees.—Isaiah 38: 8-9. It is he that smiteth upon the circle of the earth.—Isaiah 40: 22. He that spreadeth abroad the earth.—Isaiah 52: 5. That spreadeth abroad the earth by myself.—Isaiah 54: 24. My hand also hath laid the foundation of the earth.—Isaiah 58: 13. Thus sayeth the Lord, which giveth the sun for a light by day, and the moon and stars for a light by night (not worlds).—Jer. 31: 35-36. The sun shall be turned into darkness, and the moon into blood.—Acts 2: 20.
